EXPERIENCE

Eco Travel Ethiopia, Addis Ababa — *Full Stack developer (Remote)*

Oct 2022 – Feb 2023

I developed a sustainable tourism website using React and Tailwind CSS, with a strong focus on user friendly navigation and accessibility. Collaborating closely with the back end team, I ensured seamless integration of front end components with the REST API, while implementing efficient state management using Redux to enhance site performance and deliver a smooth user experience.

Undiscovered Ethiopia, Addis Ababa — *Frontend Developer (Remote)*

Nov 2023 – Jan 2024

I built and deployed a dynamic travel website using Next.js, delivering an engaging user experience with interactive features and a fully responsive design. By integrating third party APIs, I enabled real time data and booking capabilities, while optimizing assets and implementing lazy loading techniques improved site performance by 20%. Additionally, I collaborated closely with the marketing team to apply SEO best practices, resulting in a 15% increase in organic traffic and stronger online visibility.

Helen Zeray Portfolio, Addis Ababa— *Frontend Developer*

Mar 2023 – May 2023

I developed a portfolio website for a painter using Next.js and Tailwind CSS, creating a platform to showcase her artwork and exhibitions. The site featured a user-friendly gallery with detailed descriptions of each painting and was optimized for both desktop and mobile devices to ensure a seamless browsing experience. By collaborating closely with the artist, I was able to reflect her unique vision and style in both the design and functionality of the website.

Lalibela Expeditions , Addis Ababa— SEO Optimization

Jan 2025 – Feb 2025

I optimized the SEO for Lalibela Expeditions' WordPress website by implementing keyword research, improving on page content structure, and enhancing metadata and image optimization. These efforts boosted the site's visibility on search engines, driving more organic traffic and improving its online presence in the competitive travel and tourism market.

Lalibela Expeditions , Addis Ababa— Frontend Developer

Aug 2025 – PRESENT

I worked on improving the Lalibela Expeditions WordPress website by fixing existing pages and adding new ones to enhance functionality and user experience. My contributions focused on creating a more structured layout, ensuring consistency across the site, and optimizing content presentation to better reflect the company's brand and services.

Add Ethiopian Travel, Addis Ababa — Fullstack Developer (Co-Developer)

Aug 2025 – Sep 2025

As a Fullstack Developer (Co-Developer) for Add Ethiopian Travel, I contributed to building a modern, user-friendly travel website that highlights Ethiopia's top destinations and tour services. I worked on both frontend and backend features, implementing responsive layouts, smooth navigation, and optimized performance across devices. Additionally, I collaborated with the team to ensure the website reflected the company's brand identity and provided an engaging experience for visitors exploring travel options.

Makeda Tours, Addis Ababa — Fullstack Developer

Jun 2025 – Jul 2025

As a Fullstack Developer for Makeda Tours, I contributed to building a modern, user-friendly travel website showcasing Ethiopia's top tour packages and destinations. I worked on both frontend and backend development, implementing responsive layouts, smooth navigation, and optimized performance across devices. Additionally, I collaborated with the team to ensure the website reflected the company's brand identity and provided an engaging

experience for visitors exploring travel options.

Duka Interiors , Addis Ababa— *Fullstack Developer*

Jun 2025 – PRESENT

I developed a modern and visually appealing website for **Duka Interiors**, focusing on showcasing their interior design projects and services. The website features a responsive layout, intuitive navigation, and optimized performance across devices, providing visitors with a seamless browsing experience. Additionally, I collaborated closely with the client to reflect their brand identity and design aesthetics throughout the site.

EDUCATION

CPU Business and Information Technology, Addis Ababa, Ethiopia— *Bachelor of Science in Computer Science*

October 2017 – August 2022

Bachelor of Science in Computer Science from **CPU Business and Information Technology, Addis Ababa, Ethiopia**, where I gained a strong foundation in software development, data structures, algorithms, database management, and modern web technologies. During my studies from October 2017 to August 2022, I developed practical skills in programming, problem solving, and project development, preparing me for a career in full stack web development.
